

JADE KERBER

SQUARE ONE

The debut offering from rising star Jade Kerber, *Square One* is an ambitious Contemporary Jazz record, filled to the brim with intelligent, confident compositions that contradicts his youth. Shifting effortlessly from grandeur to sensitivity, *Square One* treats the listener to a genuine musical feast in this first instalment of what promises to be a decorated international career for Jade.

The result of 12 weeks of intensive writing and recording in late 2015, *Square One* showcases not only Jade's compositional abilities, but also displays some of Australia's premier Jazz Artists. Featuring performances from the likes of Matt Jodrell, Darryn Farrugia and Phil Turcio, blended with world class production talent from engineers such as Scott Hull (Masterdisk), Jade's pieces come to life with an urgency and joy that holds its own against commercial international release.

Having received widespread interest and recognition, both domestically and internationally, what Jade has achieved with his debut record is a mature, assured, and yet easily accessible and cohesive album that is sure to leave you waiting and ready for his next release.

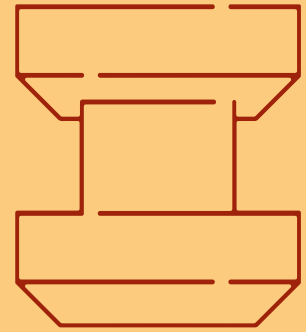

Originating from Tasmania, Jade Kerber has invested years into developing his talents both as a composer / producer and as a multi-instrumental performer. His continuous studies in composition, production and performance and his collaborations with international artists and companies, are all part of his continued push to produce the highest standard in contemporary music on the international scene.

"A competent multi-instrumentalist in his own right, Jade also possesses a very comprehensive understanding of extended harmony, which is often outlined in his compositions. Jade's understanding of record production techniques and continual quest to push the boundaries, I believe will allow Jade to become one of the most sought after contemporary jazz and sound design artists Australia has ever seen."

Gene Shill (Producer)
